Problem Statement (raw)

overdue all customer in ID03 with 51.8 DSO, so we will focus on this for this project. High A/R overdue shows that a company is selling

Goal (raw, optional)

Improve the cashflow with reduce monthly overdue A/R customer to 12.8%

VOC / VOB (bullet, satu per baris)

Head of Sales : "Reduce A/R overdue & DSO all customers in ID03, target overdue A/R 12.8% and 50

Key Issue / Context (optional)

A/R Overdue

- **Industry / Area / Theme:**
Manufacturing / Supply Chain / Other

Problem

In 2016, 27.54% of total A/R was overdue for all customers in ID03 with a DSO of 51.8 days. This indicates that the company is taking longer to collect payments, resulting in less readily available cash to finance operations. High A/R overdue also leads to blocked orders, preventing CSD from sending products until payments are made.

Goal

Improve cash flow by reducing monthly overdue A/R to 12.8% and monthly DSO to 50 days by the end of November 2017.

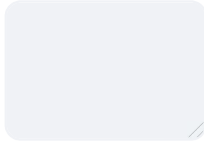

Business Case

Reducing A/R overdue will improve cash flow, allowing the company to

- ☐ Ada proyek sebelumnya a dengan topik yang sama

Catatan proyek sebelumnya (opsional, jika ada)

finance operations more effectively. This will also reduce blocked orders, enabling better customer service and potentially increasing sales.

Scope

In Scope:

- Entire A/R process within the Supply Chain
- Invoicing
- Payment collection

Out of Scope:

- Unrelated financial operations
- Non-A/R related billing processes

CTQ

- **A/R Overdue Percentage**
(Percentage %): The percentage of accounts receivable that are overdue beyond 30 days.
- **Days Sales Outstanding (DSO)**
(Days days): The average number of days it takes to collect payment after a sale has been made.
